For over 30 years, Invacare has set the standard for manual wheelchairs by empowering people with disabilities to achieve their goals. Invacare’s programs and services have helped providers operate more successfully and efficiently while meeting their clients’ needs. The “can-do” attitude and commitment to quality from Invacare is represented in the full product line of standard manual wheelchairs. Today Invacare continues to work on design improvements while maintaining the characteristics that have become tradition: durability, interchangeability and value.
People with disabilities want more than wheelchair mobility. What they really want is access, integration, and jobs - they want to do all the same things able-bodied people want to do.
Invacare® Transportation Chair

FEATURES

- Stylish, Silver Vein, powder-coated carbon steel frame
- Footrests are included with the chair and match frame finish
- Black nylon upholstery is flame retardant and bacteria resistant
- Full-length arms are padded for comfort
- Carry straps on seat allow for ease of folding and lifting
- Fold-down back makes transport and storage easy

Invacare® Tracer® SX5 wheelchair’s lightweight frame, weighing less than 36 lb., makes this chair perfect for rental and long- or short-term use. This wheelchair offers multiple seat widths, arm styles, sectional back and seat-to-floor heights by utilizing the dual axle position frame base. The 20” and 22” widths include a semi-pneumatic caster to accommodate a weight capacity of 300 lb. Combining the design and technology of the Invacare® 9000 series wheelchairs makes it possible to interchange components with the Tracer SX5 wheelchair.
Invacare® Tracer® SX5 Recliner Wheelchair

FEATURES

• Dynamic range of recline from 90° to 180°
• Durable, low-maintenance, triple chrome-plated carbon steel frame
• Urethane rear tires, mounted on “no flex” wheels, offer superior performance
• Low-maintenance, dual-sealed precision bearings
• Heavy-duty inner liners keep seat and back from stretching

Invacare® 9000 Topaz™ Wheelchair

FEATURES

- Available in vinyl or nylon upholstery
- Durable low-maintenance, carbon steel frame is long-lasting
- Reinforced frame includes gusseted sides, caster journals and dual heavy-duty crossbraces
- Multiple frame color variations available for customizing
- Heavy-duty front riggings provide proper positioning for feet with footrest and elevating legrest
- Heavy-duty arms designed to accommodate weight capacity and provide proper positioning
- Dual axle positions allow for quick and simple seat-to-floor height variations, 17.5" and 19.5"
- HDPG option for 1,000 lb. weight capacity
- Heavy-duty triple inner liners keep seat and back from stretching

Invacare® 9000 Topaz™ wheelchair is designed specifically to suit the unique needs of bariatric patients. The Topaz wheelchair combines the strength and durability of a carbon steel frame with the comfort of heavy-duty front riggings and arms for proper positioning. With a variety of seat widths and depths, frame reinforcements that include gusseted sides, caster journals and dual heavy-duty crossbraces, this chair provides not only ease in maneuverability but proven stability.
#### Invacare® 9000 Jymni™ Wheelchair

**FEATURES**

- Durable, carbon steel frame is long-lasting
- Stroller handles provide ergonomic positioning for caregiver and remove for ease in transporting
- Adjustable front riggings provide ideal positioning for pediatric clients
- Urethane rear tires mounted on "no flex" wheels offer superior performance
- Virtually no-maintenance, dual-sealed precision bearings
- Dual-axle positions allow for quick and simple seat-to-floor height adjustments of 15” and 16”
- Seat width and depth options provide proper positioning
- Adjustable angle back easily changes from -5˚ to 20˚ in 5˚ increments
- Meets RESNA standards for manual wheelchairs in product performance

The new adjustable tension Invacare® Versair™ Back is designed for positioning and comfort, offering versatile and clinically beneficial solutions when standard sling upholstery does not meet an individual’s need. Wide tension straps are easily adjustable to accommodate positioning requirements with maximum support. They can be adjusted taut in the lower back for optimal sacral support or relaxed in the upper back to accommodate a thoracic kyphosis. The padded back upholstery uses mesh fabric for added comfort and improved airflow between the user and the back.
Why Invacare® General Use Backs and Cushions?

As the premier brand in the home health care industry, Invacare continues to be committed to meeting both the needs of customers and consumers worldwide with Invacare’s standard wheelchair products. Invacare general use seat cushions and backs are available without a qualifying diagnosis.

The Invacare® Versair™ Back is designed for positioning and comfort, offering versatile and clinically beneficial solutions when standard sling upholstery does not meet an individual’s need.

Mesh fabric effectively dissipates heat and moisture.

The Invacare® Matrix® Genera™ Back provides support and comfort at a price so affordable that no wheelchair user needs to make do with sling upholstery.

The Invacare® Propel™ Back is so lightweight and comfortable consumers will forget it’s there. Hardware installation is no longer a hassle: just grab it, set it and go. The Invacare Propel Back provides a stable surface for propulsion and completion of daily living activities.

For individuals with mild to moderate seating needs, the Invacare® Absolute™ Cushion offers simple, but highly functional solutions. This cushion is designed to provide basic comfort using highly resilient foam and is intended for individuals who are able to do their own weight shift for pressure relief.

For individuals with mild to moderate seating needs, the Invacare® Single Density Cushion offers simple, but highly functional solutions. This cushion is designed to provide basic comfort using highly resilient foam for pediatrics to geriatrics who are able to do their own weight shift for pressure relief.

For individuals with mild to moderate seating needs, the Invacare® Comfort-Mate Extra Cushion goes one step further with a comfortable, molded design and a durable moisture-resistant coating. Ideal for individuals who are able to do their own weight shifts for pressure relief, who need comfort, stability, gentle positioning and some protection.

---

**INVACARE® Cyclical Lever Drive**

Invacare® CLD (Cyclical Lever Drive) provides users with the ability to self-propel themselves with one arm, enabling an active, mobile and independent lifestyle.

With its front caster steering mechanism, simple rowing motion design and adjustability in height and stroke length, the Invacare CLD is an easy to use one-arm drive.

There are no service requirements for the CLD mechanism, although service requirements for the wheelchair apply. Kits available for provider installation. Right- or left-handed configuration. Provider installed kits for Invacare 9000 XT, 9000 SL and Patriot wheelchairs. See 9000 XT price list (95-66) for availability. These are not compatible with U2222 rear wheel and the 9000 SL wheelchair also requires space saver arms.

- **A. Height at adductor**: 3.25"
- **B. Height at abductor**: 2.25"
- **C. Height at rear**: 2.5"
- **Cushion weight approximately**: 2 lb.
- **Limited warranty**: 1 year

#### Invacare® Single Density Cushion

For individuals with mild to moderate seating needs, the **Invacare® Single Density Cushion** offers simple, but highly functional solutions. This cushion is designed to provide basic comfort using highly resilient foam for pediatrics to geriatrics who are able to do their own weight shift for pressure relief.

**Specifications**
- **Width**: 10" – 24"
- **Depth**: 7" – 20"
- **A. Height at rear**: 2"
- **B. Height at rear (center)**: 1.5"
- **C. Height at front**: 2.5"
- **Cushion weight approximately**: 2 lb.
- **Limited warranty**: 1 year

#### Invacare® Comfort-Mate Extra Cushion

For individuals with mild to moderate seating needs, the **Invacare® Comfort-Mate Extra Cushion** goes one step further with a comfortable, molded design and a durable moisture-resistant coating. Ideal for individuals who are able to do their own weight shifts for pressure relief, who need comfort, stability, gentle positioning and some protection.

**Specifications**
- **Width**: 14" – 22"
- **Depth**: 14" – 20"
- **A. Height at adductor**: 2.625"
- **B. Height at abductor**: 3.0"
- **C. Height at leg trough**: 2.25"
- **Cushion weight approximately**: 2.3 lb.
- **Limited warranty**: 1 year
