The Invacare® microAIR® MA65 Therapeutic Support Surface model improves air circulation and cools the body temperature with a unique system of air released into the mattress. The MA65 mattress is an alternating pressure with on demand low air loss mattress replacement system that aids in the prevention and treatment of stage I to IV pressure ulcers.
Features

*State of the art compressor* – With solenoid valve system allows for easy set up and effective therapy cycles

*Four therapy times* – Can be adjusted for patient comfort to provide pressure relief

*Constant pressure monitoring* – Monitors the air pressure in the mattress to maintain the appropriate pressure to prevent capillary occlusion (generally below 32mm/Hg)

*Wireless Auto Fowler* – When activated, 25% more air is automatically pushed into the mattress to prevent patient from bottoming out when bed is articulated

*Audio and visual alarms* – Warns the patient and caregiver during power outage or low pressure

*Lock out button* – Prevents against tampering or accidental adjustments

*Power outage safety* – Mattress remains inflated during power outage as long as air hose is connected to the compressor

*Cover* – Anti-microbial, fluid resistant, vapor permeable cover guards against friction and shear

*Pressure adjustment* – Pressure can be adjusted by 50% to provide comfort for frail patients

---

**HCPCS Code: E0277**

1. Raised side rails (optional on MA65)
2. Comfort levels based on patient weight with digital display
3. Wireless auto fowler helps to prevent from bottoming out
