Invacare® Reliant™ Lifts were designed to help reduce the possibility of caregiver back injury and to ensure dignity in resident handling. These high-quality lifts are comfortable, reliable and integral tools for caregivers. Invacare Reliant Lifts support up to 450 lbs., making potentially challenging transfers smooth for the resident and caregiver. The high lift range are designed to allow easy access to chairs, commodes, floors and beds (with at least 4.5" under-bed clearance). The sturdy and practical design of Reliant Lifts provides the solution you need for success in the quest to provide safe and effective health care.
Invacare Reliant Lift Features

Height range allows lifting from floor and high surfaces
Low friction casters significantly improve rollability and contribute to caregiver safety
Removable battery pack eliminates downtime and simplifies the charging process
Manual lowering for instant response to power loss
Electronic system includes two 24-volt batteries: one for lift, one for battery-charging station; a manual emergency lowering device; and an anti-entrapment feature if boom meets any resistance while lowering
Available with power opening base option (model # RPL450-2)

Multi-grip push handle is angled to minimize wrist strain
Base legs adjust easily and lock securely into open position with the padded shifter handle or optional power option
Total pinch-point protection covers all moving parts for added safety
Padded swivel bar with 360˚ rotation and six-point hook-up allows use of Invacare chain-free slings as well as older style slings with chains or straps
Attractive neutral design blends well into any environment
Covered base provides protection against wear, dirt and moisture

1 Rear Locking Brakes
   Locking feature on 5" rear casters is standard on all models

2 Manual Lowering
   Manual emergency lowering gently and safely lowers resident in case of total power loss
   Essential safety feature
   Manual lowering is easy and effortless. Simply insert the end of a ball point pen into the hole marked “emergency” or lift on the accessible ring-pull

3 Invacare® Reliant™ Digital Scale
   Retrofits on all Reliant 450/600 lifts
   Model # 9805P requires Reliant swivel bar
   Easy to operate, four-button display
   Automatic shut-off feature prolongs battery life
   Two-year limited warranty

4 Ergonomic control with heavy-duty cord
   Convenient pendant hook allows attachment and storage on multiple areas of lift

5 Electronics
   Removable battery box conveniently located on mast features an emergency off button and beeps when battery needs recharged. Requires one 24-volt battery
   Quick-release battery eliminates downtime
   Anti-entrapment feature stops motion if boom meets resistance while lowering

6 Charging Station
   Battery can be replaced immediately with second battery in wall-mounted charger
   UL listed and CSA certified

Hand Pendant
