

INVACARE®
XPO₂™
PORTABLE OXYGEN CONCENTRATOR

With the **Invacare® XPO₂™ Portable Concentrator**, providers and patients have a choice of ambulatory oxygen systems from Invacare Corporation, the world leader in home oxygen equipment. Named for its extreme portability, the XPO₂ concentrator is designed to be lightweight, clinically robust and easy to operate. The supplemental battery and AC/DC power options make it easy for patients to go just about anywhere without the fear of running out of oxygen.

The Invacare® XPO₂™ concentrator features **Invacare® Sensi-Pulse™ Technology** that customizes the size of each bolus of oxygen to meet patient demand. Whether sleeping, relaxing or exercising, Sensi-Pulse technology adapts to the patient's oxygen needs. Sensitive conserver, sensible design...Sensi-Pulse Technology. Sensi-Pulse technology provides constant minute-volume. This means that regardless of a patient's breath rate at any given setting, the same amount of oxygen is provided per minute. As the breath rate decreases, the bolus size increases.

Features

Pulse dose settings 1-5 meet the needs of a broad range of patients

Battery, AC or DC operation for patient convenience

No separate battery recharger; charge internal and external batteries with either the AC or DC adapter

Supplemental battery pack allows for extended battery power

Small compact design

Provider Benefits

Significantly reduces operating costs by virtually eliminating cylinder deliveries, without sacrificing patient care

Encourages compliance with oxygen therapy as patients have no worries about running out of oxygen

Simple control panel is easy for patients to use and understand

Patient Benefits

Small, lightweight, non-medical looking package provides comfort, convenience and increased independence

Enjoy life's experiences anywhere, any time without heavy cylinders and excessive tubing

FAA approved for in-flight use. Visit www.invacare.com for a list of airlines that allow the use of the XPO₂ Portable Oxygen Concentrator

HCPCS Code: E1390/E1392
