These two (2) microAIR lateral rotation mattress models provide lateral rotation, alternating pressure and low air loss therapy for residents who must be turned for pressure relief or other health indications. Inherent in the design of the patented Z-cell air cell design is alternating pressure as the mattress turns.
Invacare® microAIR® MA90Z & MA95Z Lateral Rotation Mattresses

**Body Interface Pressure Imaging Test**

Test demonstrates contact measurement between key pressure points. Subject is 5'5" female, 110 lbs. Simulation. Individual resident results will vary.

**Specifications**

- **Resident Risk Level**: Medium-High
- **Cover**: Urethane four-way stretch, quilted, anti-microbial, fluid resistant vapor-permeable cover protects internal cells. Bottom cover is 1000 Denier nylon
- **Limited Warranty**: 1 year on mattress, 2 years on power unit
- **Power Unit**: 1275 LPM compressor (MA95Z), 50 LPM blower (MA90Z)
- **Electrical Power**: 90V, 60Hz 1A
- **Internal cells**: 70 Denier urethane coated nylon

**Features**

- **Efficient real-time monitoring** for correct pressure relief
- **2" safety foam base** adds safety and comfort
- **Quick connect air cells**
- **Built-in carrying straps** for easy transportation
- **CPR Release**
- **Inflates quickly**

**MA90Z**

- **Rotation up to 30°**
- **Solenoid air valves** maintain proper interface pressure
- **Power outage safety** with hose connected to the compressor

**MA95Z**

- **Rotation up to 45°**
- **90° Magnetic hose connector**
- **LCD display**
- **True air loss**

**Bariatric**
