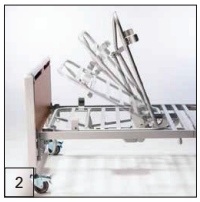
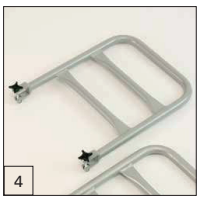
Etude HC Homecare Bed

The ETUDE HC Homecare bed, with its attractive aesthetics, flexible design, simple operation and easy handling is the ideal choice for community home care.

The ETUDE HC is the only advanced homecare bed to offer Shear Management Technology as a standard feature, reducing shear and friction providing superior comfort and safety. The SMT feature is provided through the auto-regression of the head section while repositioning in ETUDE HC through use of the 8 function hand control.

Features and Options





1. Built in Dual Height Brackets.
2. Shear Management Technology.
3. Transport and Storage Kit.
4. Support Handle.
5. Lifting Support Trapeze Kit.
6. 4" and 8" Extension Kit.

Modern and Flexible

ETUDE HC delivers a modern, streamlined and discreet design perfectly complimenting any interior. The ETUDE HC can be configured with attractive wood side panels and a choice of safety rails to accommodate specific transfer, safety and support requirements. ETUDE HC provides a deck height ranging from 7.8" to 26.5", the best in the industry. The simple to use 8 function hand control enables the user or caregiver to lock out specific functions for increased safety.

Easy Handling & Storage

ETUDE HC recognizes that portability, storage and set-up are important features for users and caregivers alike. The simplistic design allows for simple assembly without tools and transport can be managed safely and comfortably as each section of ETUDE HC weighs less than 52 lbs. Smooth roll 3" locking casters enable the bed to be easily manoeuvered within the home.

Highest Safety Levels

The ETUDE HC conforms to the IEC bed standard IEC60601-2-52. This equates to the highest degree of safety for both the client and the caregiver. ETUDE HC's choice of siderails have all met the demands for strength and entrapment guidelines required in the new safety standards for beds. Visit www.invacare.ca for more information.
