

Parts Catalog Usage Guide

See illustration to determine right side from left side when choosing parts for rails or crossbrace assemblies.

NOTE: To determine which crossbrace assembly, channel with barrel, or barrel only, to order, we have listed them as (1022789) Left Head End / Right Foot End or (1022790) Right Head End / Left Foot End. When the barrels are used on the opposite side of the bed, the parts are reversed.
