Invacare® Pediatric Bear Nebulizer System

The Invacare® Pediatric Bear Nebulizer System is the latest addition to Invacare’s line of quality aerosol compressors offering performance, reliability and value that providers and patients expect from Invacare.

The bear design will relax and calm children, while the included mouthpiece and pediatric mask offer a choice to promote child acceptance for an effective aerosol treatment.

Features

- Cute, child-friendly bear design
- Packaged with reusable nebulizer and pediatric mask
- Convenient nebulizer parking post
- Built-in carrying handle
- Durable – five-year limited warranty

Specifications

- Dimensions: 6.5” W x 8.2” H x 5.5” D
- Weight: 3.4 lb.
- Maximum compressor pressure: 30 - 35 PSI
- Typical operating pressure: 12.4 to 15.4 PSI
- Typical operating flow rate: 4.0 L/min minimum @ 16 PSI

Invacare® Select Aerosol Compressor

The Invacare® Select Aerosol Compressor is a standard compressor packaged with a disposable nebulizer. It is designed to meet today’s performance and price requirements.

Features

• Packaged with one disposable nebulizer
• Built-in handle
• Easy operation
• UL listed
• Convenient carrying handle for ease of transportation

Specifications

• Dimensions: 6” L x 4.5” W x 3.5” H
• Weight: 3.2 lb.
• Maximum compressor pressure: 36 PSI
• Typical operating pressure: 11 - 16 PSI
• Typical operating flow rate: 4 - 8 LPM

**Invacare® Stratos™ Compact Aerosol Compressor**

The Invacare® Stratos™ Compact Aerosol Compressor is a sleek piston compressor that offers stylish design, quality and economy in one compact package. Powerful enough to deliver the fast, effective aerosol treatments users expect.

---

**Features**

- Packaged with a reusable nebulizer
- Economical – premium product that is priced to fit the needs of the managed-care market
- Stylish – attractive design and color
- Durable – five-year limited warranty
- Nebulizer parking post

**Specifications**

- Dimensions: 5.9” L x 5.7” W x 3.7” H
- Weight: 3.2 lb.
- Maximum compressor pressure: 33 PSI
- Typical operating pressure: 11 - 16 PSI
- Typical operating flow rate: 4 - 8 LPM

Features

- Powerful enough to drive a standard nebulizer
- Mobile – small size, quiet operation and battery pack (sold separately) allows the unit to be used almost anywhere
- Economical – premium product that is priced to fit the needs of the managed-care market
- Flexible – can be powered using the AC power cord in a wall outlet, the DC adapter in a car or the optional battery pack
- Three-year limited warranty
- UL Listed

Specifications

- Dimensions: 5.1" L x 3.6" W x 1.6" H
- Weight: 1 lb. (450 g) - without battery pack
  1.4 lb. (650 g) - with battery pack
- Maximum compressor pressure: 29 PSI
- Operating flow rate: 3.5 LPM
- Maximum flow rate: 10 LPM
- Noise level: 52 dB

Nebulizer Features

- Nebulization Rate - 0.4 ml/minute
- Particle size - < 5 microns
Invacare® MOBILAIRE™ 50 PSI Compressor

Model no. IRC607

The durable Invacare® MOBILAIRE™ 50 PSI Compressor is ideal for use with medications that require more flow and pressure for proper nebulization.

Features
- Low-noise operation
- Easy-to-read pressure gauge
- Non-marring rubber feet
- Suction cup feet for stable operation
- Durable piston
- Adjustable pressure
- Optional J-tube (IRC5070) available
- UL and CSA listed

Specifications
- Dimensions: 8” L x 8” W x 10.5” H
- Weight: 11.3 lb.
- Pressure range: 0 - 50 PSI
- Operating pressure: 7 LPM at 23 PSI nominal with a filtered nebulizer system
- Electrical requirements: 115 VAC/60 Hz, 7/8 hp shaded pole motor

Invacare® Aspirator

Model no. IRC1135

The Invacare® Aspirator is a durable suction unit designed for most home care suction requirements.

Features
- High-performance vacuum specifications
- Adjustable vacuums from 0” to 23” Hg
- Durable piston vacuum pump
- Easy-to-read gauge
- Non-marring suction cup feet
- Single-use collection jars and connecting tubing for quick and easy replacement (1 set included)
- UL and CSA listed

Specifications
- Dimensions: 14.8” L x 6.8” W x 9.8” H
- Weight: 12.1 lb.
- Vacuum range: 0 - 520 mm Hg 0 - 23” Hg
- Air flow: 0 - 40 LPM
- Electrical requirements: 115 VAC 60 Hz, 7/10 hp shaded pole motor

Invacare® Nebulizers

The VixOne™ Nebulizer is an economical choice in small-volume nebulizers. It is available with a variety of inputs, including a T-piece mouthpiece, adult, pediatric clear or Super Spike pediatric mask and Pedi-Neb™ pacifier.

Features

- Nebulizes at angles up to 45°
- Graduated volume marking on medication chamber
- Anti-spill designed T-piece mouthpiece option
- Creative pediatric mask and infant pacifier options

Reusable Jet Nebulizers

Model no. MS2600, MS2700

The Reusable Jet Nebulizer is an extremely cost effective and durable nebulizer. The special geometry and smooth surface finish of the nebulizer result in minimal residual volume.

Features

- Rapid and efficient
- Nebulizes 2ccs in approximately three minutes
- Low residual volume of medication
- Constant nebulization in every position at an angle of up to 80°

Pedi-Neb™ Pacifier

Model no. MS0382

The Pedi-Neb™ pacifier calms an infant or toddler during aerosol treatment, as the medication is inhaled through the nose, not mouth.

**TruZone® Peak Flow Meter**

Model no. IRC1198

The TruZone® Peak Flow Meter (PFM) makes it easy to monitor peak expiratory flow rates at home. The small size and shape enhance portability and ease of use. The unique logarithmic scale allows the TruZone® PFM to be used in low flow rate conditions (pediatrics) or for standard flow rates. And through the use of Color Zone® decals, each TruZone® PFM can be customized easily for color-zone management of asthma as recommended by the NAEPP (National Asthma Education and Prevention Program). Each TruZone® PFM is packaged with four Color Zone® tapes and a daily record.

**Features**

- Small size makes it easy to use or transport
- Clear body for easy reading of flow rate
- Internal indicator is protected from accidental mishandling
- Accurate measure of PEFR in low flows (pediatrics) and standard flows (adults)
- Simple cleanup with soap and water
- Color Zone® decals easily customize the TruZone® PFM for color-zone management of asthma—no calculations required
- Meets the current American Thoracic Society® waveform 26 standards

**Specifications**

- Range: 60-800 lpm
- Dimensions: 17.4 cm L x 3.2 cm W x 3.2 cm H
- Weight: 33.1 g

**Monaghan AeroChamber Plus® Z STAT®**

Model nos. HC78510, HC88510, HC79510

The Monaghan AeroChamber Plus® Z STAT® anti-static Valved Holding Chamber (aVHC) helps improve the delivery of medications from metered-dose inhaler (MDI) canisters. It also reduces the coordination required between canister activation and inhalation, making it easier for the patient to use the MDI correctly. And it reduces drug deposition to the mouth and throat, helping to eliminate unpleasant medication taste or hoarseness. AeroChamber Plus® Z STAT® aVHC comes in three sizes, permitting MDI therapy to be administered to infants and small children.

**Features**

- Z Stat® custom anti-static polymer minimizes static charge which maximizes performance with MDI formulations
- Clear chamber for easy visualization of proper activation of the MDI
- One-way valve to hold and protect the aerosol until inhalation begins
- Universal MDI adapter allows use with most MDIs
- FLOWSIGnal® whistle alerts patient to excessive flow rates (adult versions only)
- ComfortSeal® masks available in two sizes allow use by infants and small children
- Tested with both CFC and HFA formulations
